FUJI OIL CO., LTD.

Release of Integrated Report 2026 and Sustainability Report 2026

FUJI OIL CO., LTD. (Headquarters: Izumisano-shi, Osaka; Representative Director, President and CEO: Tatsuji Omori) published its “Integrated Report 2026” and “Sustainability Report 2026” on October 30, 2026.

**Integrated Report 2026****Sustainability Report 2026**

Integrated Report

The Integrated Report presents an overview of the Fuji Oil Group’s businesses and its medium- to long-term strategies. Through ongoing dialogue with stakeholders regarding the content of the report, the Group aims to enhance its corporate value.

■ Key Content of Integrated Report 2026

• Value Creation Story:

The report presents the Group’s medium- to long-term direction for achieving growth by combining the strengths of its four businesses to resolve problems for customers and society. This direction is outlined in two parts: the Mid-Term Management Plan and the Group’s outlook beyond the plan.

• CEO Message:

In addition to reviewing the progress and achievements made during the first year of the Mid-Term Management Plan, the message outlines the Group’s vision for medium- to long-term growth by leveraging the strengths of its four businesses, as well as its approach to enhancing corporate value.

•**Progress of the Mid-Term Management Plan:**

Dedicated sections for each of the plan's three Basic Policies provide an overview of the progress made on key initiatives.

Sustainability Report

The Sustainability Report supplements the ESG information presented in the Integrated Report. It aims to provide a clear and comprehensive overview of the Fuji Oil Group's approach to sustainability and the progress of its initiatives toward realizing its vision.

The report has been prepared in accordance with the GRI Standards and with reference to IFRS S1 "General Requirements for Disclosure of Sustainability-related Financial Information."

For the 2026 edition, the report's structure has been revised to more clearly demonstrate the connection between the Group's overall approach to sustainability management and its priority actions. For each sustainability area under the ESG materiality framework, the report presents the Group's "Policy," "Governance," and "Strategy." For each priority action within these categories, it presents "Risk Management," "Metrics and Targets," and "Specific Initiatives."
