

Fuji Oil Grievance List

This is a list of grievances which have been registered by Fuji Oil in accordance with our grievance procedure based on Fuji Oil Responsible Palm Oil Sourcing Policy.

As of June 2026.

The next update of this list will be in September 2026.

No.	Parent Group Name	Supplier Name	Type of Grievance	Case Status	Year received	Month received	Response & Progress
1	Panca Eka Group	Uniseraya	Environmental	Monitoring	2026	Mar	T1 supplier (#1) 6 Aug 2024 - Direct supplier has received confirmation from supplier that clearance in peatland is confirmed so they have put Panca Eka Group on their no-buy list. The company does not seem to implement any SWO as well. Direct supplier will inform internally about this to ensure Panca Eka Group is not entering the supply chain from other third parties. T1 supplier (#2) 19 Jun 2025 - Direct supplier had direct meeting with Uniseraya management at Uniseraya Office in Pekanbaru. Uniseraya clarified that all the land permit they got for Uniseraya was already being approved to shift from Sago Plantation to Palm Oil Plantation. All the area already being cleared back during 2001-2007 period after they got the IPK (Timber Utilization Permit) on 2000. From that point it said that all the area completely being cleared out for sago plantation, and along the time it grew back. To uphold the NDPE commitment PT Uniseraya agree to do the HCV-HCS-LUCA assessment to have a comprehensive assessment regarding their Go'ho-go area as well as the potential liability. This activity of comprehensive studies will be assisted by RamamAsia which targeted to start the assessment by end of June 2025. 28 Sep 2025 - Direct supplier still trying to further discuss with them to get more info & commitment from them. We are engaging our T1 supplier for further investigations.
2	Union Sampoerna Triputra Persada (USTP)	Hargan Hibrida Kalbar (Sungai Ijal Estate)	Environmental	Monitoring	2026	Jan	Direct supplier has received preliminary verification indicating that the company is currently undergoing HCV-HCS studies to strengthen its NDPE commitments. Direct supplier continues to actively engage with the supplier to obtain more detailed updates, including clarification on the background of the land clearance. We are engaging our T1 supplier for further investigations.
3	Lyman Agro Group (Lyman Group)	Bumi Agro Makmur	Environmental	Monitoring	2026	Mar	T1 supplier (#1) 28 May 2025 - Direct supplier has double checked their TTP data & clarified that PT Sukes Karya Mandiri, PT Anugerah Agung Prima Abadi & PT General Aura Semari are not among the supplying plantations for the mill they purchase from. As for PT Etam Bersama Lestari, engagement is underway & awaiting feedback. T1 supplier (#2) 8 Aug 2025 - TAP has engaged with the landowners from 4 implicated subsidiaries to prevent any further clearing activities. 28 May 2025 - Direct supplier confirms TAP as their direct supplier has no other affiliated subsidiaries as not part of their supply chain. Regarding the deforestation allegations concerning the implicated subsidiaries, TAP has clarified that land clearing did occur within the concessions of PT Sukes Karya Mandiri, PT Etam Bersama Lestari & PT Anugerah Agung Prima Abadi. TAP further stated that these cleared areas belong to local communities & the land clearing activities were carried out by the respective landowners. As for PT General Aura Semari, further engagement with TAP is underway. T1 supplier (#3) 23 Sep 2025 - Anugerah Agung Prima Abadi, Etam Bersama Lestari, General Aura Semari and Sukes Karya Mandiri have carried out socialization activities to educate and create awareness among the local communities regarding the HCV area and HCS forest to ensure that no clearance takes place in these areas for conservation as well as biodiversity and wildlife protection. 5 Jun 2025 - The clearance took place inside the PT SKM concession and was conducted by a local community member by the name of Arifin, who owns the land.
4	Sinar Alam Corporation	Kalimantan Barito Persada	Environmental	Monitoring	2026	Mar	T1 supplier (#1) 28 May 2025 - Direct supplier has double checked their TTP data & clarified that PT Sukes Karya Mandiri, PT Anugerah Agung Prima Abadi & PT General Aura Semari are not among the supplying plantations for the mill they purchase from. As for PT Etam Bersama Lestari, engagement is underway & awaiting feedback. T1 supplier (#2) 8 Aug 2025 - TAP has engaged with the landowners from 4 implicated subsidiaries to prevent any further clearing activities. 28 May 2025 - Direct supplier confirms TAP as their direct supplier has no other affiliated subsidiaries as not part of their supply chain. Regarding the deforestation allegations concerning the implicated subsidiaries, TAP has clarified that land clearing did occur within the concessions of PT Sukes Karya Mandiri, PT Etam Bersama Lestari & PT Anugerah Agung Prima Abadi. TAP further stated that these cleared areas belong to local communities & the land clearing activities were carried out by the respective landowners. As for PT General Aura Semari, further engagement with TAP is underway. T1 supplier (#3) 23 Sep 2025 - Anugerah Agung Prima Abadi, Etam Bersama Lestari, General Aura Semari and Sukes Karya Mandiri have carried out socialization activities to educate and create awareness among the local communities regarding the HCV area and HCS forest to ensure that no clearance takes place in these areas for conservation as well as biodiversity and wildlife protection. 5 Jun 2025 - The clearance took place inside the PT SKM concession and was conducted by a local community member by the name of Arifin, who owns the land.
5	Triputra Agro Persada	Sukes Karya Mandiri	Environmental	Monitoring	2026	Feb	T1 supplier (#1) 28 May 2025 - Direct supplier has double checked their TTP data & clarified that PT Sukes Karya Mandiri, PT Anugerah Agung Prima Abadi & PT General Aura Semari are not among the supplying plantations for the mill they purchase from. As for PT Etam Bersama Lestari, engagement is underway & awaiting feedback. T1 supplier (#2) 8 Aug 2025 - TAP has engaged with the landowners from 4 implicated subsidiaries to prevent any further clearing activities. 28 May 2025 - Direct supplier confirms TAP as their direct supplier has no other affiliated subsidiaries as not part of their supply chain. Regarding the deforestation allegations concerning the implicated subsidiaries, TAP has clarified that land clearing did occur within the concessions of PT Sukes Karya Mandiri, PT Etam Bersama Lestari & PT Anugerah Agung Prima Abadi. TAP further stated that these cleared areas belong to local communities & the land clearing activities were carried out by the respective landowners. As for PT General Aura Semari, further engagement with TAP is underway. T1 supplier (#3) 23 Sep 2025 - Anugerah Agung Prima Abadi, Etam Bersama Lestari, General Aura Semari and Sukes Karya Mandiri have carried out socialization activities to educate and create awareness among the local communities regarding the HCV area and HCS forest to ensure that no clearance takes place in these areas for conservation as well as biodiversity and wildlife protection. 5 Jun 2025 - The clearance took place inside the PT SKM concession and was conducted by a local community member by the name of Arifin, who owns the land.
6	Triputra Agro Persada	First Lamandau Timber International	Environmental	Monitoring	2026	Jan	T1 supplier (#4) 28 Jul 2024 - TAP has clarified that the land clearance at PT SKM was carried out by the local community as landowners. PT SKM is aware of the loss of HCVs area due to the land clearance & they have efforts to socialize the issue to the community & relevant stakeholders. We are engaging our T1 supplier for further investigations.
7	Triputra Agro Persada	First Lamandau Timber International - Koperasi Guna Wahana Sejahtera	Environmental	Monitoring	2026	Jan	T1 supplier (#1) 28 May 2025 - Direct supplier has double checked their TTP data & clarified that PT Sukes Karya Mandiri, PT Anugerah Agung Prima Abadi & PT General Aura Semari are not among the supplying plantations for the mill they purchase from. As for PT Etam Bersama Lestari, engagement is underway & awaiting feedback. T1 supplier (#2) 8 Aug 2025 - The cleared areas belong to local community & the clearing process was carried out by the landowner. TAP has engaged with the landowners from 4 implicated subsidiaries to prevent any further clearing activities. 28 May 2025 - For PT General Aura Semari, further engagement with TAP is underway. T1 supplier (#3) 23 Sep 2025 - Anugerah Agung Prima Abadi, Etam Bersama Lestari, General Aura Semari and Sukes Karya Mandiri have carried out socialization activities to educate and create awareness among the local communities regarding the HCV area and HCS forest to ensure that no clearance takes place in these areas for conservation as well as biodiversity and wildlife protection. 25 Jul 2025 - The clearance took place inside the PT GAS location permit (Ijin Lokasi) area. The clearance was conducted by a local community member by the name of Sulaiman, who owns the land. PT GAS has no plans for new planting or new development. 5 Jun 2025 - PT GAS has conducted an integrated HCV-HCS assessment and has been peer reviewed by HCVN with a satisfactory outcome. Details of the clearance is still being investigated.
8	Triputra Agro Persada	General Aura Semari	Environmental	Monitoring	2026	Jan	T1 supplier (#4) 28 Jul 2024 - Direct supplier has reached out to the company but no significant improvement made, unable to establish strong connection with the company. We are engaging our T1 supplier for further investigations.
9	Triputra Agro Persada	Dwivira Lestari Jaya - Koperasi Sawit Sejahtera	Environmental	Monitoring	2026	Jan	We are engaging our T1 supplier for further investigations.
10	Sayan Putra Pratama (SPP) Group	Sayan Plantation	Environmental	Monitoring	2026	Jan	We are engaging our T1 supplier for further investigations.
11	Zarex Global Limited	Putera Menunggul Perkasa - Kasuari Estate	Environmental	Monitoring	2026	Jan	We are engaging our T1 supplier for further investigations.
12	Yayasan Sabah Group	Serijaya Industri Sdn Bhd - Luasong Estate	Environmental	Monitoring	2026	Mar	T1 Supplier (#1) [Extract from direct supplier's grievance list] This case has been placed under its ineligible grievance list for grievance resolution. 19 Nov 2024 - Direct supplier initiated an investigation on the Innoprise case since August 2020, and the investigation concluded that the land development was not related to their oil palm operations. Their land development activities were related to timber tree planting, mainly the timber species Laran (Neolamarckia cadamba). During the course of investigation, Innoprise has submitted comprehensive documents for review, including: (1) Detailed concession maps showing planting blocks, in shapelite format. (2) The Sabah Forestry Department (SFD) approved Annual Work Plans (this is a formal document required to be submitted to SFD annually and shows the planned work in relation to both their timber and oil palm operations) (3) Innoprise's field visit reports, including ground and drone photos of random selected points to show condition on the ground. In November 2021, when Malaysian authorities issued its Covid-19 movement control restrictions, direct supplier deployed a technical team, consisting of conservation, GIS and plantation sustainability experts to carry out field verification. The team has visited the area to verify the condition on the ground. Drones were deployed for photo/video taking where the area is not easily accessible due to lack of roads. The outcome of the field visit is consistent with Innoprise's clarification where the area was indeed cleared for Laran tree planting.
13	Yayasan Sabah Group	Serijaya Industri Sdn Bhd - Lokan Estate	Environmental	Monitoring	2026	Mar	T1 Supplier (#1) [Extract from direct supplier's grievance list] This case has been placed under its ineligible grievance list for grievance resolution. 19 Nov 2024 - Direct supplier initiated an investigation on the Innoprise case since August 2020, and the investigation concluded that the land development was not related to their oil palm operations. Their land development activities were related to timber tree planting, mainly the timber species Laran (Neolamarckia cadamba). During the course of investigation, Innoprise has submitted comprehensive documents for review, including: (1) Detailed concession maps showing planting blocks, in shapelite format. (2) The Sabah Forestry Department (SFD) approved Annual Work Plans (this is a formal document required to be submitted to SFD annually and shows the planned work in relation to both their timber and oil palm operations) (3) Innoprise's field visit reports, including ground and drone photos of random selected points to show condition on the ground. In November 2021, when Malaysian authorities issued its Covid-19 movement control restrictions, direct supplier deployed a technical team, consisting of conservation, GIS and plantation sustainability experts to carry out field verification. The team has visited the area to verify the condition on the ground. Drones were deployed for photo/video taking where the area is not easily accessible due to lack of roads. The outcome of the field visit is consistent with Innoprise's clarification where the area was indeed cleared for Laran tree planting.
14	Yayasan Sabah Group	Serijaya Industri Sdn Bhd - Imbak Estate	Environmental	Monitoring	2026	Feb	T1 Supplier (#1) [Extract from direct supplier's grievance list] This case has been placed under its ineligible grievance list for grievance resolution. 19 Nov 2024 - Direct supplier initiated an investigation on the Innoprise case since August 2020, and the investigation concluded that the land development was not related to their oil palm operations. Their land development activities were related to timber tree planting, mainly the timber species Laran (Neolamarckia cadamba). During the course of investigation, Innoprise has submitted comprehensive documents for review, including: (1) Detailed concession maps showing planting blocks, in shapelite format. The outcome of the field visit is consistent with Innoprise's clarification where the area was indeed cleared for Laran tree planting.
16	KUB Malaysia Berhad	KUB Sepadu Sdn Bhd - Sungai Buloh Estate	Environmental	Monitoring	2026	Jan	T1 supplier (#1) 21 Jul 2025 - The land clearing is not related to oil palm development. T1 supplier (#1) 6 Jun 2024 - This is a JV with the state government agency Pelita, and for the community's social economy development - we expect more of such detection to arise from this concession as participants of the Pelita project may unilaterally develop these areas themselves without waiting for Ta Ann. The broader issue is also stated many times by COPPA President, Neeloeen Ningdon about native people's rights to develop their own NCR lands, in light of the EU Oil DB. Unfortunately, T1 supplier unable to ascertain whether the detected clearings are legitimate for palm cultivation or otherwise as they do not have direct commercial relationship with Ta Ann nor do they want to assert that native people should be forced to be in compliance with NDPE commitments.
17	Huang Lung Ong, Mr.	Golden Star Express	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
18	Ta Ann Group	Ta Ann Pelita Durin Plantation Sdn Bhd	Environmental	Monitoring	2026	Jan	We are engaging our T1 supplier for further investigations.
19	Ta Ann Group	Ta Ann Pelita Nengah Sdn Bhd - Ta Ann Pelita Nengah Estate	Environmental	Monitoring	2026	Jan	We are engaging our T1 supplier for further investigations.
20	Golden Flame Plantation	Golden Flame Plantation	Environmental	Monitoring	2026	Jan	We are engaging our T1 supplier for further investigations.
21	Rimbunan Hilir Group	Wangrean - Sentase Oil Palm Estate	Environmental	Monitoring	2026	Jan	We are engaging our T1 supplier for further investigations.
22	First Resources Ltd	Citra Agro Kencana	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
23	Triputra Agro Persada	Koperasi Itean Mengas Belaya	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
24	WTK Group	Oxford Glory Estate	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
25	Ta Ann Group	Ta Ann Pelita Nengah Estate	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
26	Union Sampoerna Triputra Persada (USTP)	Sungai Ijal Estate	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
27	CCN Group (Central Cipta Murdaya)	PT Sebauk Inti Plantation	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
28	Kencana Agri Limited	PT Loka Indah Lestari	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
29	Indomasa Group	PT Indomasa Jaya Sejahtera	Environmental	Monitoring	2026	Feb	We are engaging our T1 supplier for further investigations.
30	Pasifik Agro Sentosa (PAS)	PT Cipta Usaha Sejaht	Environmental	Monitoring	2026	Mar	T1 supplier (#1) 19 May 2024 - According to field verification conducted by PT CUS, there has been land cleared inside the conservation area. The boundary marker of the conservation area was not installed yet and the operations team was using a map that was not updated. This resulted in misinterpretation of the conservation area boundary. Since then, PT CUS has conducted the following remediation steps: To stop land development activities in the location, to rehabilitate the area to be conservation zone, to conduct natural regeneration program by planting indigenous species, to install permanent boundary signposts indicating that it is a conservation area, updates to GIS and their operational maps, to conduct training and socialization on conservation area for the operations team. PT CUS also provided documentation of oil palm tree removal and replanting of indigenous species in the encroached area. T1 supplier (#2) 20 May 2026 - In Feb 2026, PAS reached out to clarify that PAS has submitted eACP to RSPD is currently under review. We are engaging our T1 supplier for further investigations.
31	Goodwood Valley Sdn Bhd	Daharita Plantation Sdn Bhd	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
32	KUB Malaysia Berhad	Sungai Buloh Estate	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
33	Golden Agro Plantation Sdn Bhd	MSP & MLI Division	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
34	Prima Andar Surya	PT Citra Sug Aditya	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
35	Triputra Agro Persada	Koperasi Bina Sejahtera	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
36	First Resources Ltd	Bomereperada Prima Jaya	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
37	Mr Kho Karsono Budiatomo & Mr Herman Kosasih	PT Sentosa Kalimantan Jaya	Environmental	Closed	2026	Mar	Report 16-28 Feb 2026 & 1-15 Mar 2026: PT SKJ provided clarification that the alert is outside of the operational area of Koperasi PT Sentosa Kalimantan Jaya and is also outside PT SKJ's partnership smallholder plantation (Koperasi Kasur Sejahtera). Report 16-13 Mar 2026: PT SKJ clarified that they have cleared the oil palm area to be used as a buffer zone and to prevent spill-off to the adjacent conservation area.
38	FAP Agri Tiba	Manam Citra Adiperkasa (Mahakam Ulu)	Environmental	Closed	2026	Mar	Direct supplier's last purchase from FR was Q3 2024. The detected supply from FR is under indirect transaction via another trader. Direct supplier needed more time to transition fully to removed FR from supply chain & that was around end 2025.

Fuji Oil Gievance List

43	Pancadaya Perkasa	PT Bumi Mula Makmur Lestari	Environmental	Monitoring	2026	Mar	PT BMML clarified that the location is inside UHP of PT. BMML and is still being occupied/managed by community.
43	First Resources Ltd	PT Borneo Damai Lestari	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
44	Dayang & Lestak Enterprises Sdn Bhd	PT Bunkalan Sawit Mas Muali	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
45	PTPN Group	PT Agriprima Cipta Persada	Environmental	Closed	2026	Mar	As initial finding, PTPN XIV - Muali Estate located in East Sulawesi does not appear to direct supplier's refinery.
45	Kanunia Prima Nantari (KPN Corp)		Environmental	Closed	2026	Mar	Report 16-28 Feb 2026 & 1-15 Mar - 15-31 Mar 2026. PT ACP clarified that the cleared area is located inside the UHP of ACP, but outside of the HGU. They added that this area is being utilized for the Cetak Sawah Rakyat program (which is classified as a non-forest area) initiated by the Indonesian government to support food security developments.
45	First Resources Ltd	Pusaka Agro Mahmud	Environmental	Monitoring	2026	Mar	We are engaging our T1 supplier for further investigations.
45	Astra Agro Lestari	Group	Social	Monitoring	2024	Jun	21 Jul 2025 - Supplier has shared their 1st year action plan implementation report which is also made publicly available on their website.
							19 Mar 2025 - Supplier updated us on the implementation of their action plan & achievements in the 1st semester (Jul - Dec 2024).
							2 Jan 2025 - A timebound action plan has been developed for PT LIT, MMG & ANA based on findings & ENS final verification report & inputs from stakeholders (available on AAL website). Reports of the implementation of action plan has also been published in Sep & Nov 2024.
							16 Jul 2024 - Supplier released a statement responding to FoU & WAIH report. They emphasize that they & all subsidiaries operate by applicable laws & policies in Indonesia. They also have not undertaken any expansion or new land clearing since the formal implementation of their sustainability policy in 2015. They stated that limitations in data resources used in their report has resulted in inaccuracy & lack of info that does not reflect actual conditions.
							T1 supplier #1: 24 Jul 2024 - Direct supplier does not source from the 3 companies mentioned in report (PT Mamuang, PT Lestari Tani Teladan & PT Agro Nusa Abadi) but does source from AAL in group level. Since the original report has been published in 2022, direct supplier has engaged with AAL management on the issue & recorded on their grievance dashboard. Direct supplier acknowledges that AAL has made significant efforts to respond to allegations raised by FoU since 2022. With the recent report published in June 2024, AAL provided direct supplier with information about its joint statement with ENS detailing AAL's action plan as a follow-up on their 3rd party verification report. Direct supplier will continue its engagement with AAL & monitor progress.
46	Capella Group	Swarna Nusa Sentosa 2	Environmental	Monitoring	2024	Aug	T1 supplier #2: 13 Aug 2024 - Direct supplier recognise that AAL management has been taking active steps towards resolving the grievance impacting PT Mamuang which includes the action plan published in June 2024. However, based on findings from latest traceability info, direct supplier has discovered that PT Lestari has been sourcing FFB from PT Mamuang. AAL is also unable to take measures to stop sourcing from PT Mamuang as it is the only source of FFB for PT Mamuang. AAL is also unable to take measures to stop sourcing from PT Mamuang as it is the only source of FFB for PT Mamuang.
							30 Jul 2024 - Direct supplier's position remains that they will investigate and verify on their end if there are any implicated mills and/or plantations and take the necessary action if NDPE non-compliance is found. They do not take an immediate group suspension approach.
							25 Jul 2024 - Direct supplier has stopped sourcing from PT Mamuang, PT Lestari Tani Teladan, PT Agro Nusa Abadi & PT Paanglaya since 2022. They will continue to monitor the other mills for potential NDPE non-compliance. Until they identify & verify the allegations of non-compliance, they will continue to source from other Astra mills.
							T1 supplier #3: 24 Jul 2024 - Direct supplier states that their Astra has a plan for long-term improvements & significant progress has been seen in the past 1.5 years in terms of Astra's transparency & use. In Astra's published action plan, they have put specific actions on engaging with communities that were not able to be engaged before, that shows a continuation & extension of an FPIC implementation. Direct supplier is not planning to suspend a supplier with positive transformation unless the supplier fails to make progress or no willingness to improve.
							T1 supplier #4: 18 Sep 2024 - As per an update from AAL, they have engaged a third party, EcoNuantara, to engage with WALHI at both local (Sulawesi) and national levels, while Robertbridge, a global sustainability adviser, is in communication with Friends of the Earth. Direct supplier encourages AAL to continue publishing periodic updates for the awareness of the action plan.
47	DTK opportunity Limited	Permata Lestari Jaya	Environmental	Monitoring	2024	Aug	19 Jan 2025 - Case has been escalated to higher level of management for discussion as the supplier is hard to engage.
48	Bimbanan Hijau Group	Sulur Tisa Holdings Berhad/Tisa Mevra Sdn Bhd	Environmental	Monitoring	2024	Nov	24 Jan 2025 - There is no significant progress from them and direct supplier is still trying to get them connected. Direct supplier's next plan is to elevate this case to the higher up discussion to explore another option on how can connect to them and also to explore the commercial involvement in there.
49	Kencana Agri Limited	Agri East Borneo Kencana	Environmental	Monitoring	2024	Nov	13 Jun 2024 - Still no response from supplier. Direct supplier has put into red notice & communicated with their trading team.
50	Paying Mitraya Mandiri		Social	Monitoring	2025	Jan	12 Feb 2024 - Direct supplier to enable this case as there has been no response from this supplier throughout 3rd round since 24 Feb 2023. Full to be notified.
51	Bimbanan Hijau Group	Bimbanan Sawit Bhd/R.H. Plantations (Belawan Estate)	Environmental	Monitoring	2025	Jan	We are engaging our T1 supplier for further investigations.
52	Coporation Dinant	Group	Social	Monitoring	2025	Feb	17 Apr 2025 - Field verification states that clearance was carried out by local community on land owned by them, there are outside of HCV/HCS area & peatland.
							10 Apr 2025 - Direct supplier is currently still engaging them and waiting on legal verification from them. They're also trying alternative channel to connect with them such as trading team to speed up the process.
							PT PMM issued a company statement of their standing position regarding the human right violation. They're PMM clarified publicly (Press Conference) that all allegations of human right violations towards PT PMM were not true. PT PMM committed to comply with all legal procedure and working closely with police office to settle down all the accusation.
							We are engaging our T1 supplier for further investigations.
							T1 supplier #1: 20 Feb 2025 - Corporation Dinant is part of direct supplier's continuous improvement program with Proforest. This includes regular engagement to ensure ongoing progress to address any areas needing improvement to comply with our Human Rights and Environmental Policy, as well as Supplier Code of Conduct. Direct supplier has actively engaged with DINANT and is closely assessing and monitoring the situation. Dinant has expressed its willingness to communicate & it addresses the allegations in the Ramona Initiative report as well as the additional issues raised. Direct supplier is conducting a thorough investigation. Until there is a clearer understanding of how DINANT will address these allegations and within what timeframe, direct supplier has decided to place all new purchases with this supplier on hold.
53	Multi Prima Intakai	Permatatjiru Sarana	Environmental	Monitoring	2025	Mar	In the coming weeks, direct supplier's primary focus will be on advancing this investigation, strengthening our engagement with DINANT, and supporting the development of an action plan to address any violations and non-compliances that may be identified. Additionally, direct supplier will refer this case to a grievance panel, which reviews and discusses the investigation findings and determines the next steps.
							T1 supplier #2: 11 Feb 2025 - Dinant has published an official response and has firmly rejected the unfounded allegations made in the report. On the 1st of July, CR wrote an unfounded complaint against Dinant alleging non-compliance with Article 2.11.2 of the German Supply Chain Due Diligence Act (LkSG). Dinant strongly rejects the false and misleading allegations made against the company and undermines their commitment to respecting human rights. Since 2021, Dinant has maintained full membership of the Voluntary Principles on Security and Human Rights (VPSHR), the highly esteemed international initiative that promotes standards for how organizations wet, recruit, and train security men and women, and how they engage peacefully and transparently with local communities. Dinant is the first Honduran company in the first agribusiness in the world to join the VPSHR for implementing international best practices on security and human rights. This membership was a process that started in 2023 when Dinant took the decision to begin benchmarking their operations against these principles. Improving the professional capabilities and performance of its security team is a priority, and for this reason, Dinant has trained 100% of its security Officers in the Voluntary Principles of Security and Human Rights Program, which includes undertaking regular risk assessments, improving relations between Public and Private Security Forces, including interaction with the security providers, as well as strictly following the rules on the use of force. In the past year, Dinant has trained 251 people, plus those from different local authorities and more than 1,000 community members.

Fuji Oil Gievance List

71	Triputra Agro Persada	Etam Bersama Lestari	Environmental	Monitoring	2026	Mar	T1 supplier (#1) 2 Jun 2025 - The alert in PT Etam Bersama Lestari was carried out by community. Currently, there is no planting activity in the area & direct supplier will monitor it. 28 May 2025 - Direct supplier has double checked their TTP data & clarified that PT Sukes Karya Mandiri, PT Anugerah Agung Prima Abadi & PT General Aura Semari are not among the supplying plantations for the mill they purchase from. As for PT Etam Bersama Lestari, engagement is underway & awaiting feedback. T1 supplier (#2) 8 Aug 2025 - TAP has engaged with the landowners from 4 implicated subsidiaries to prevent any further clearing activities. 28 May 2025 - Direct supplier confirms TAP as their direct supplier but the affiliated subsidiaries are not part of their supply chain. Regarding the deforestation allegations concerning the implicated subsidiaries, TAP has clarified that land clearing did occur within the concessions of PT Sukes Karya Mandiri, PT Etam Bersama Lestari & PT Anugerah Agung Prima Abadi. TAP further stated that these cleared areas belong to local communities & the land clearing activities were carried out by the respective landowners. T1 supplier (#3) 23 Sep 2025 - Anugerah Agung Prima Abadi, Etam Bersama Lestari, General Aura Semari and Sukes Karya Mandiri have carried out socialization activities to educate and create awareness among the local communities regarding the HCV area and HCS forest to ensure that no clearance takes place in these areas for conservation as well as biodiversity and wildlife protection. 29 Jul 2025 - TAP has clarified that the land clearing at PT EBL was carried out by the local community as landowners. PT EBL is aware of the loss of HCV/CS area due to the land clearing & they have efforts to socialize the issue to the community & relevant stakeholders. 5 Jun 2025 - The cleared area was within the PT. EBL concession and was conducted by a local community member who owns the land, from the Warga Desa Tepian Terap community. PT. EBL has conducted an integrated HCV & HCS assessment which has been peer reviewed by HCVn with a satisfactory outcome. T1 supplier (#4) 11 Jul 2025 - Land clearing at PT EBL was carried out by the local community as the landowners. PT EBL is aware of the loss of HCV area due to land clearing & they have taken effort to socialize to community & relevant stakeholders.
72	Saraswati Group	Saraswati Sawit Makmur	Environmental	Closed	2026	Apr	5 Jun 2026 - PT. SSM has committed to a Stop Work Order as of 18th December 2025. The company does not clear land in areas identified as high conservation value. PT SSM has formal policies enforcing sustainable land use, banning burning, and protecting plantation areas. The company commits to sustainable management of palm oil including implementation of the No Deforestation policy, complies with national laws, and adheres to ISPO (Indonesian Sustainable Palm Oil) standards. All operations are conducted legally with a focus on responsible, transparent, and sustainable palm oil practices.
73	Mopeli Raya	Alper Timur	Environmental	Monitoring	2025	Oct	We are engaging our T1 supplier for further investigations.
74	NSS Group	Borneo Sawit Perdana	Environmental	Monitoring	2026	Feb	25 Jul 2025 - Based on the supplier feedback, they stated that the alerts fall outside the conservation area (both HCV and HCS area). attached the full HCV and HCS maps overlaid with the alerts together with the conclusion of the HCV and HCS studies
75	First Resources Ltd	Borneosurga Mining Jaya	Environmental	Monitoring	2025	Nov	19 June 2025 - Supplier says that the clearance done at 22 ha area and it was conversion from community rubber plantation We are engaging our T1 supplier for further investigations.
76	Yayasan Sabah Group	Serijaya Industri Sdn Bhd - Gunung Rara Estate	Environmental	Monitoring	2026	Mar	T1 Supplier (#1) [Extract from direct supplier's grievance list] This case has been placed under its ineligible grievance list for grievance resolution. 19 Nov 2024 - Direct supplier initiated an investigation on the Innoprise case since August 2020, and the investigation concluded that the land development was not related to their oil palm operations. Their land development activities were related to timber tree planting, mainly the timber species Laran (Neolamarckia cadamba). During the course of investigation, Innoprise has submitted comprehensive documents for review, including: (1) Detailed concession maps showing planting blocks, in shapelleff format. (2) The Sabah Forestry Department (SFD) approved Annual Work Plans (this is a formal document required to be submitted to SFD annually and shows the planned work in relation to both their timber and oil palm operations) (3) Innoprise's field visit reports, including ground and drone photos of random selected points to show condition on the ground. In November 2021, when Malaysian authorities eased its Covid-19 movement control restrictions, direct supplier deployed a technical team, consisting of conservation, GIS and plantation sustainability experts to carry out field verification. The team has visited the area to verify the condition on the ground. Drones were deployed for photo/video taking where the area is not easily accessible due to lack of roads. The outcome of the field visit is consistent with Innoprise's clarification where the area was indeed cleared for Laran tree planting.
77	Buyung Putra Pansan	Sumber Exim Alam Lestari	Environmental	Monitoring	2025	Dec	We are engaging our T1 supplier for further investigations.
78	Triputra Agro Persada	Dewiwa Lestari Jaya	Environmental	Monitoring	2025	Dec	The clearance area detected was inside the PT.DLI concession area, the area belongs to a community member by the name of Bapak Andi and the clearance was conducted by him. The cleared area was identified as a HCV area. PT. DLI has conducted outreach and socialisation to the community and land owners.
79	Tan Than Siang, Datuk	Pure Green Development Sdn Bhd	Environmental	Monitoring	2025	Dec	There seems to be a trend within the TAP group concessions recently and direct supplier has noted 9 in total with similar clearance patterns. Direct supplier has also received information that the Dayak Gawai celebration is taking place in Kalimantan and the community may be clearing the land to plant 'ngul bera' which is a customary event.

85	WFM Group of Companies	Tabarak Abadi	Environmental	Monitoring	2025	Dec	We are engaging our T1 supplier for further investigations.
86	Triputra Agro Persada	Trieka Agro Nusantara	Environmental	Monitoring	2026	Mar	24 Sep 2025 - The clearance is located within the PT. TAN concession, the land is owned and controlled by the local community. Plans are being coordinated for socialisation to the respective stakeholders.
87	Karyadeka Group	Berau Karekondjo Lestari	Environmental	Monitoring	2025	Dec	There seems to be a trend within the TAP group concessions recently and we have noted 9 in total with similar clearance patterns. We have also received information that the Dayak Gawai celebration is taking place in Kalimantan and the community may be clearing the land to plant 'ngul bera' which is a customary event.
88	Triputra Agro Persada	Kutim Agro Mandiri	Environmental	Monitoring	2026	Feb	This confirmed that the location refers to the community's cultivated fields & will continue. It is not part of the work area of PT.BMS. So far, the company's efforts have been advise not to clear land by burning. T1 supplier (#1) 9 Jul 2025 - The clearance took place inside the KAM concession. The clearance was conducted by a local community member by the name of Albar Tanjung, who owns the land. KAM has no plans to carry out any new planting or new development activities. Direct supplier has requested further action to be taken by KAM. (1) Develop an action plan to prevent forest clearing within the HCV/HCS area, including a plan for community land from within the company concession area, (2) to conduct socialization of HCV/HCS area to community landowners, (3) to enclose the community land within the concession, (4) to provide a statement letter not to accept any FFB from the cleared area by the community within the company concession. T1 supplier (#2) 15 Jul 2025 - Following direct supplier's engagement with Triputra Agro Persada, they clarified that the land clearing was carried out by local community, as the landowners. PT KAM is aware of the loss of HCV area due to the land clearing & they have taken effort to socialize the issue to the community & relevant stakeholders.
89	S.E.A Holdings Pte.	Prasista Utama	Environmental	Monitoring	2026	Dec	We are engaging our T1 supplier for further investigations.
90	CCM Group (Central Cipta Murdaya)	Hardaya Inti Plantation	Environmental	Monitoring	2026	Mar	8 Dec 2025 - Based on engagement with PT Hardaya Inti Plantation, they clarified that both land clearings were carried out by local communities.
91	Golden Agro Plantation Sdn Bhd	Golden Agro Plantation (Mukah) Berhad - M10 & M11 Division	Environmental	Monitoring	2025	Dec	We are engaging our T1 supplier for further investigations.
92	TSH Resources Bhd	Teguh Swakarsa Sejagitera	Environmental	Invalid	2026	Mar	24 Mar 2026 - Received clarification from TSH that the location of clearance was due to drainage upgrading and maintenance work, not for palm oil development or land expansion. The drainage channel was an existing infrastructure that was upgraded to improve flow and functionality. The drain connects the recently cleared area by the nearest discharge waterway and is part of their water management activity to prevent blockage, flooding or deterioration of drainage network.
93	Unknown Group	Surya Panen Subur	Environmental	Closed	2026	May	PT SP5 2 was reported by Mighty Earth as having 559 hectares of peat development within its concession during the period of 18 December 2024 - 23 April 2026. EQ verification indicates that land clearing activities have been detected in the area since 2018, with expansion reaching 423 hectares as of 31 December 2025, including peat and forest areas. The alert is generally assessed as a True Alert. However, part of the reported area, particularly around coordinates 1.772457, 96.52227, is assessed as a False Alert, as the clearing pattern, scale, and surrounding evidence indicate potential local community activity rather than company-led plantation development. Additional attention is also required due to reported social conflict and overlapping MSO boundaries with community managed land. EQ traceability verification shows no supply chain connection from PT SP5 2 to Fuji Oil.
94	Citadel Investment Corporation	Nusama Griya Lestari	Environmental	Closed	2026	May	PT NGL was reported by Mighty Earth as having 90 hectares of deforestation within its concession during the period of 4 January 2024 - 29 April 2026. EQ verified several alerts as True Alerts, while part of the reported area appears to have been previously opened based on historical imagery and is likely associated with rubber or mixed plantations. EQ recorded 7 hectares of land clearing in 2025 at the identified location. EQ traceability verification shows no supply chain connection from PT NGL to Fuji Oil.
95	FAP Agri	Borneo Bhakti Sejagitera	Environmental	Monitoring	2026	May	The detected supply from FB is under indirect transaction via another trader. Direct supplier's last purchase is still consistent as stated in their dashboard which is Q3 2024, while for indirect purchase direct supplier needs more time for transition to fully removed from the supply chain and that was around end of 2025.
96	ABM Group	Kalimantan Hamparan Sawit	Environmental	Closed	2026	Apr	T1 supplier (#1) 7 May 2026 - The company has maintained a land clearing moratorium since July 2024. Following reports of land clearing in Nov 2025, PT KHS conducted verification, halted activities in the affected area, and implemented corrective and restoration measures. T1 supplier (#2) 11 May 2026 - Fuji's direct supplier had initiated engagement with PT Kalimantan Hamparan Sawit (KHS) when they detected the issue through their internal monitoring programme in September 2025. Based on PT KHS' investigation, the land clearing on the 6 out of 10 areas mentioned in the report was not conducted by the company. It was illegally encroached by surrounding communities. In response, PT KHS has committed to not accept Fresh Fruit Bunches (FFB) from the affected areas and will further conduct broader awareness and engagement programs in collaboration with the local Natural Resources Conservation Agency (BKSDA) regarding the importance of protecting conservation areas. Regarding the remaining 4 areas, PT KHS had conducted a field verification in March 2026 and identified that the land clearing occurred due to the misinterpretation of the working map by the contractor assigned for plasma plantation development. This led to the inadvertent clearing of some conservation areas. PT KHS has since ceased all land clearing activities in the affected areas and undertaken immediate corrective measures to prevent recurrence. These measures include the demarcation and marking of conservation area boundaries, the installation of warning signage, and conducting socialization and awareness programs for workers and contractors. Furthermore, PT KHS has committed to the development and implementation of a comprehensive restoration plan, including enrichment planting and ongoing monitoring to ensure ecological recovery for the affected areas.
97	PEPP (Perbadanan Kemajuan Pertanian Negeri Pahang)	PEPP Plantations (Cherating)	Environmental	Monitoring	2026	June	Regarding this deforestation involving PEPP Cherating, LKPP Lepar and Dominion Square, both claimed that they did not source FFB from PEPP Ladang Cherating. Direct supplier has requested a formal written letter/declaration & supporting documents to support their claim.
98	First Borneo	Bintang Riau Sejagitera	Environmental	Monitoring	2026	June	In April 2026, in order to verify the allegations of sourcing from the First Borneo group, Fuji's direct supplier scheduled a grievance field verification to PT. GSL. Based on the verification conducted, there were no records of Fresh Fruit Bunches (FFB) from PT. Bintang Riau Sejagitera (PT.BRS, First Borneo group) or any other First Borneo entities. In June 2026, based on further allegations after the field verification was conducted, direct supplier requested PT. GSL to conduct immediate investigations. The findings indicated that one of PT.GSL's supplier was using deceptive tactics to supply FFB from PT.BRS into the mill. Since the detection, PT. GSL has immediately terminated the supplier. Based on direct supplier's recommendations, PT.GSL has socialized to all its FFB suppliers regarding the sourcing restrictions of PT.GSL, which includes specific instructions not to receive FFB from PT.BRS. This is to avoid future non-compliance.
99	Saga Group	Tri Buhtera Sukandji	Environmental	Monitoring	2026	June	We are engaging our T1 supplier for further investigations.
